教育部補助辦理國際學術教育交流活動計畫書

一、活動名稱：

International Conference on International Colleges 2024 (簡稱 ICIC 2024)

二、活動目的：

International colleges are now a major force in university education throughout Asia, Europe, and other areas of the globe. An international college offers students a pathway for pursuing academic degrees in a foreign language. International colleges serve as gathering points where students in the host country can share the classroom with those from abroad. Thus, they present opportunities and challenges that are distinct from those that characterize traditional, native language degree programs. This is particularly true in Taiwan, where international colleges attract foreign students who have limited proficiency in the local language, Chinese. The International Conference on International Colleges (ICIC) is a hybrid event that showcases the achievements of students in this unique setting and provides a forum for the discussion of issues directly related to the International College Movement.

At the Tunghai University International College (THUIC), sending students abroad is an important goal, but not necessarily the primary one. The THUIC differs from other international colleges in Taiwan, in that it gives students the opportunity to pursue an "international education" without leaving the country. The THUIC offers degree programs in international business administration (IBA) and sustainability science and management (SSM). When they graduate, learners in the IBA and SSM programs are expected to meet international standards in both English proficiency and subject expertise. In keeping with these goals, ICIC 2024 envisions Taiwan's international colleges as educational hubs that serve undergraduates from all over the globe. Furthermore, international colleges can benefit students in local high schools. The ICIC 2024 student project contest will give talented, internationally diverse students (high school and undergraduate) an opportunity to mingle, present their accomplishments in English, and earn recognition.

Teaching and leadership at international colleges presents unique problems that will be addressed in the ICIC 2024 oral presentation program. Specific issues include (but are not limited to) teachers' research within their chosen fields, the role of professional content courses and the liberal arts in the curriculum, the development of sustainable business models for international education, and findings related to the teaching of specific courses in liberal arts, international business, and sustainability.

During its first two years (2022 and 2023), ICIC was a one-day event. This year, the conference committee has decided that an expanded format will better serve needs of the project contest and oral presentation program. Therefore, ICIC 2024 will be held as a two-day event, accessible to attendees both in person and online. This proposal requests support for the research-oriented components of the conference, including the oral presentation program and the student projects in the "academic" track of the competition.

Through the involvement of students, scholars, and industry representatives, ICIC 2024 will celebrate student achievements and promote a future-oriented vision of international colleges in Taiwan.

三、活動內容：

The International Conference on International Colleges 2024 is a hybrid event designed to showcase the achievements of students in this unique environment and provide a forum for discussion of issues directly relevant to the International College movement. In order to give students the opportunity to receive "international education" without going abroad, ICIC 2024 envisions Taiwan's international colleges to become educational centers that serve undergraduate students from all over the world. In addition, international academies can benefit students from local high schools. The ICIC 2024 Student Project Competition will provide talented, internationally diverse students (high school and undergraduate students) the opportunity to network, showcase their achievements in English, and gain recognition. A one-month mini semester will be held every year and foreign lecturers and students will be invited to conduct international exchanges with students of our college, and the learning results will also be displayed in ICIC. The methods for displaying results are very diverse. First, there will be lectures or speeches by lecturers inside and outside the school (including foreign lecturers), and then there will also be a session for displaying student learning results. There are two modes of presentation, poster competition and video appreciation. The content is also very wide, including (but (without limitation) faculty research in their chosen fields, professional content courses and the role of liberal arts in the curriculum, the development of sustainable business models in international education and discoveries related to specific teaching, liberal arts, international business and sustainability courses. During the process, THU IC's unique teaching philosophy and students' enthusiasm and investment in learning will be promoted. Through the participation of students, scholars and industry representatives, ICIC 2024 will promote the future-oriented vision of Taiwan International college.

四、活動類型：

■學術研討會　□論壇　□講座　□研習營　□其他

五、活動期間：2024/06/19~2024/06/20 (9:00~17:00)

Preliminary Agenda for ICIC 2024

Day 1: Wednesday, June 19 (Student Centered Program)

09:00 – 10:00	**Keynote Address 1:** Opportunities in the Sustainable Industries for International Business and Sustainability Graduates Bart Linssen			
10:00 – 11:30	**Project Session 1:**			**Nonstop Snack Bar**
	Academic Videos	Expository Videos	Creative Videos	
11:30 – 12:30	IBA 10th Year Anniversary Luncheon			
12:30 – 14:30	**Project Session 2:**			**Nonstop Snack Bar**
	Academic Posters	Expository Posters	Creative Posters	
14:30 – 16:00	**Workshop 1:** Career Advice from Recent Graduates Speakers TBA			**Workshop 2:** Using AI Tools Strategically for Research Purposes Brianna Buljung,* Colorado School of Mines
16:00 – 17:00	**Day 1 Closing Ceremony:** Awards and Feedback from Judges			

Day 2: Thursday, June 20 (Traditional Oral Presentation Program)

09:00 – 10:10	**Keynote Address 2:** Making Interdisciplinary Studies More Accessible in Higher Education Dr. Lin-Chi Chen, National Taiwan University*			
10:10 – 10:30	Coffee Break			
10:30 – 12:00	**Panel Discussion:** International Regulation in Sustainable Industries Dr. Timo Eccarius, Dr. Ellen Kohl*, Albert Sustanto, Mart Linssen*		**Special Address:** Academic Dishonesty across Cultural Boundaries in the Age of ChatGPT Dr. Bernard Montoneri	
12:00 – 13:00	Lunch Break			
13:00 – 13:30	**Oral Presentation Session 1:**			
	Oral Session 1A	Oral Session 1B	Oral Session 1C	Oral Session 1D
13:30 – 13:50	Coffee Break			
13:50 – 16:20	**Oral Presentation Session 2:**			
	Oral Session 2A	Oral Session 2B	Oral Session 2C	Oral Session 2D
16:20 – 17:00	**Day 2 Closing Ceremony:** Recognition of Outstanding Speakers			

(*) Speaker Invitations are now in progress.

六、活動地點：

■臺灣　　□美洲　　亞洲□　　□歐洲

□大洋洲

（並請敘明所在地點城市名： 台中）

七、主/協辦單位：東海大學國際學院

八、參加對象及人數：

共___220_人（含國外專家學者__2_人、產業界__1_人、大學校院教授__15_人、大學校院學生__170__人、其他__32__人）

九、主講(持)人學經歷及著作一覽表

This section provides an overview of the speakers who will take part in the ICIC 2024 program, including international speakers and those of Taiwanese nationality.

Prof. Lin-Chi Chen 陳林祈

Deputy Vice President for Academic Affairs (Vice Provost)
Director, Center for General Education
Professor, Department of Biomechatronics Engineering,
National Taiwan University, Taipei 106319, Taiwan (R.O.C.)
Email: chenlinchi@ntu.edu.tw

Education

B.S., Department of Chemical Enginering, National Taiwan University (1997.6)

Ph.D., Department of Chemical Engineering, National Taiwan University (2001.10)

Post-doctoral Research, Department of Chemical Engineering, NTU/NCKU (2001.11-2002.9)

Post-doctoral Research, Institute of Biomedical Sciences, Academia Sinica (2002.12-2005.7)

Research Expertise

Biosensors and Biochips, DNA-based Artificial Antibodies (Aptamers), and Electrochemical Devices

72 Scopus referred (SCI) papers with 2555 citations, h-index = 30
https://www.scopus.com/authid/detail.uri?authorId=7409439070

Honors and Awards

Mr. Wu Ta You Memorial Award of National Science Council, Taiwan (2012)

NTU Special Talent Rewards (8 times)

University Excellence in Teaching Awards, NTU (7 times)

Referred Papers

[1] Y.-M. Wu, S.-Y. Liu, B.-Y. Shi, ……, and L.-C. Chen*. IoT-interfaced solid-contact ion-selective electrodes for cyber-monitoring of element-specific nutrient information in hydroponics. *Comput. Electron. Agric.* **214**, 108266 (2023).

[2] S.-F. Huang, W.-L. Shih, Y.-Y. Chen, Y.-M. Wu, and L.-C. Chen*. Ion composition

profiling and pattern recognition of vegetable sap using a solid-contact ion-selective electrode array. *Biosens. Bioelectron. X* **9**, 100088 (2021).

[3] C.-Y. Lai, W.-C. Huang, J.-H. Weng, L.-C. Chen*, C.-F. Chou, and P.-K. Wei. Impedimetric aptasensing using a symmetric Randles circuit model. *Electrochim. Acta*. **337**, 135750 (2020).

[4] C.-Y. Lai, J.-H. Weng, W.-L. Shih, L.-C. Chen*, C.-F. Chou, and P.-K. Wei. Diffusion impedance modeling for interdigitated array electrodes by conformal mapping and cylindrical finite length approximation. *Electrochim. Acta*. **320**, 134629 (2019).

[5] S.-F. Huang and L.-C. Chen*. A smartphone sensing system for solid-contact ion-selective electrodes. *ISOEN 2019 Proceedings* 8823515 (2019).

[6] J.-H. Weng, C.-Y. Lai, and L.-C. Chen*. Microfluidic amperometry with two symmetric Au microelectrodes under one-way and shuttle flow conditions. *Electrochim. Acta*. **297**, 118-128 (2019).

[7] J.-H. Weng and L.-C. Chen*. Confocal epifluorescence sensor with an arc-shaped aperture for slide-based PCR quantification. *Biosens. Bioelectron.* **100**, 71-78 (2018).

[8] Y.-H. Lao, C.-W. Chi, S.M. Friedrich, K. Peck, T.-H. Wang, K.W. Leong*, and L.-C. Chen*, Signal-on protein detection via dye translocation between aptamer and quantum dot. *ACS Appl. Mater. Interfaces*. **8**, 12048-12055 (2016).

[9] T.-C. Liao, W.-H. Chen, H.-Y. Liao, and L.-C. Chen*, Multicolor electrochromic thin films and devices based on the Prussian blue family nanoparticles. *Sol. Energy Mater. Sol. Cells*. **145**, 26-34 (2016).

[10] H.-Y. Liao, T.-C. Liao, W.-H. Chen, C.-H. Chang, and L.-C. Chen*, Molybdate hexacyanoferrate (MoOHCF) thin film: a brownish red Prussian blue analog for electrochromic window application. *Sol. Energy Mater. Sol. Cells*. **145**, 8-15 (2016).

[11] C.-C. Chen, C.-L. Lin, and L.-C. Chen*, A binary palladium-bismuth nanocatalyst with high activity and stability for alkaline glucose electrooxidation. *J. Power Sources*. **287**, 323-333 (2015).

[12] S.-J. Wang, Y.-T. Hou, and L.-C. Chen*, A selective decoy-doxorubicin complex for targeted co-delivery, STAT3 probing and synergistic anti-cancer effect. *Chem. Commun*. **51**, 13309-13312 (2015).

[13] C.-C. Chen, C.-L. Lin, and L.-C. Chen*, Functionalized carbon nanomaterial supported palladium nano-catalysts for electrocatalytic glucose oxidation reaction. *Electrochim. Acta*. **152**, 408-416 (2015).

[14] J.-Y. Wang, T.-C. Chou, L.-C. Chen*, and K.-C. Ho*, Using poly(3-aminophenylboronic acid) thin film with binding-induced ion flux blocking for amperometric detection of hemoglobin A1c. *Biosens. Bioelectron.* **63**, 317-324 (2015).

[15] C.-C. Chen and L.-C. Chen*, Synthesis and characterization of Pd-Ni core-shell nanocatalysts for alkaline glucose electrooxidation. *RSC Adv*. **5**, 53333-53339 (2015).

[16] D.-K. Yang, C.-J. Kuo, and L.-C. Chen*, Synthetic multivalent DNAzymes for enhanced hydrogen peroxide catalysis and sensitive colorimetric glucose detection. *Anal. Chim. Acta*. **856**, 96-102 (2015).

Assistant Professor

Research Interest
Sustainable cities, transportation, & mobility
Micromobility
Active transport
Travel behaviour change
Diffusion of innovations

Research methods/skills
Behavioural economics
Mixed method research design Econometrics (STATA, R, SPSS)
Qualitative content analysis
Structural equation modelling

Professional Experience
2023 - present Assistant Professor
International Business Bachelor Program
National Sun Yat-sen University, Kaohsiung
2021 - 2023 Assistant Professor
Sustainability Science & Management Program, Tunghai University (THU), Taichung
2020 - 2021 Visiting Assistant Research Fellow
Department of Transportation and Communication Management Science
National Cheng Kung University, Tainan
2019 Jun - Sep Visiting Scholar
Cities Research Institute, Griffith University, Nathan, Queensland, Australia
2015 - 2016 Lecturer (part-time)
German Department, Wenzao Ursuline University of Languages, Kaohsiung
2001 - 2014 Various Analyst and Management Positions
DB Cargo AG, Mainz/Duisburg/Frankfurt/Beijing, Germany/China

Education
2020 Mar Doctor of Philosophy (PhD)
Department of Transportation & Logistics Management
National Chiao Tung University (NCTU), Hsinchu/Taipei, Taiwan
2001 Jul Diploma of Science in Mathematics with Economics
University of Jena, Germany

Bart LINSSEN 黎森

Job Title
Managing Director

WORK EXPERIENCE AND AWARDS
Head of Service, North APAC/Ocenia, Taiwan (2022 - present)
Managing Director, ENERCON, Taiwan (2016 – present)
Service Manager, Solvent GmbH, Taiwan (2008 – 2016)
Service Manager, Hitec Power, Taiwan (2002 – 2008)

EDUCATIONAL BACKGROUND
Master in Electrical Engineering, Eindhoven University of Technology, The Netherlands

Dr. Bernard MONTONERI 孟丞書

Dual nationality: French citizen; Taiwanese ("High-Level Professionals
for Naturalization" 歸化國籍之高級專業人才 since 2017)
Associate Professor, Independent Researcher, Editor
E-mail: bernardmontoneri@protonmail.com

Education

Baccalauréat (高中畢業) obtained at the Lycée Albert 1er, Monaco, Monte Carlo (摩納哥公國).

Eight diplomas obtained at Université de Provence, Aix-Marseille I, France (法國普羅旺斯大學) :

Year	History, Literature	Chinese	Sanskrit
1999	PhD		
1997			Diploma of Indian Studies
1996		Bachelor Degree	
1995	Master 2		
1995		DEUG (Bac + 2)	
1994	Master 1		
1992	Bachelor Degree		
1990	DEUG (Bac + 2)		
1987	Baccalauréat		

Studies and diplomas

Formation in comparative literature. The Ph.D. dissertation analyzes different versions of the Diamond Sutra in Sanskrit, Chinese, and Western languages. It also provides a commentary of the sutra and a Sanskrit reconstruction of a version from the end of the Sui dynasty (581-618).

1. Montoneri, Bernard, Thèse de Doctorat (March 1999): "Eclairages apportés par la reconstitution d'un texte sanskrit du Sutra de diamant - évolution de la Vajracchedika (金剛經) en Chine entre le Ve et le VIIIe siècle." (400 pages) Jury : Jean Naudou, Noël Dutrait, Paul Magnin, Hubert Durt. Très honorable (PhD; magna cum laude). 獲 89 年國科會研究獎勵甲等獎.
2. Montoneri, Bernard, Mémoire de DEA (Octobre 1995): "Évolution socio-économique de la communauté bouddhique à Taiwan (1949~1994)." 博士先修班論文 ："臺灣佛教的社會及經濟變革（1949~1994)"（Master 2）
3. Montoneri, Bernard, Mémoire de Maîtrise (June 1994): "Vie et oeuvre du moine-pèlerin Xuanzang." 碩士論文 ： 玄奘的一生及其作品（Master 1).

EDUCATION
TUNGHAI UNIVERSITY
Taichung, Taiwan Bachelor of Science in Sustainability Science and Engineering June 2020
● GPA: 4.03 / 4.30
● Honors: Recipient of the THU International Student Scholarship for four years in a row
● Relevant Coursework: Economics, E-Commerce, Green Marketing, Sustainability Governance

WORK EXPERIENCE
MT. STONEGATE GREEN ASSET MANAGEMENT LTD. Jakarta, Indonesia
Manager SE Asia Markets & Global EACs Sourcing Taichung, Taiwan
March 2023 – present
● Lead the company's business development efforts within the Southeast Asian market, with a primary focus on expanding
the project portfolio of Energy Attribute Certificates (EACs) and Carbon Offsets. Played a key role in assisting
multinational and local companies, as well as their supply chains, in developing decarbonization strategies
● Responsible for overseeing global Energy Attribute Certificates (EAC) sourcing activities, which involved identifying
project proponents in over 20 countries worldwide. Actively pursued partnerships with multinational corporations and
business associations to foster collaborations
● Successfully aided a Fortune 500 company in reducing their environmental footprint by enabling the consumption of
renewable energy across more than 30 locations worldwide. This involved implementing sustainable energy solutions
and strategies to support the company's commitment to renewable energy consumption and sustainability goals
● Speaking Opportunities:
o Presented corporate renewable energy solutions at the Renewable Energy Markets Asia 2023 conference held in

Singapore on April 27-28, 2023, highlighting the challenges and opportunities of purchasing renewable energy in
the Japanese market.
o Led a roundtable discussion on Virtual Power Purchase Agreements (VPPAs) in China and Japan at the Clean
Energy Buyers Association Spring Summit, held in Seattle, USA on May 9-11, 2023. Facilitating productive
dialogue, we explored the opportunities and challenges of VPPAs in these markets, fostering greater understanding
and collaboration among clean energy buyers.

Manager RE100 New Markets July 2020 – February 2022
● Responsible for business development in new emerging markets, focusing on areas such as EAC, carbon offsets trading, and project development
● Engaged in a carbon offset project development situated in Indonesia, projecting a potential reduction of up to 3 million
tons of CO2 emissions and an estimated gross revenue of approximately 4 million USD.
● Participated in the transaction of over 1 million MWh (megawatt-hours) of Green Electricity, generating a total revenue exceeding 3 million USD
● Represented the company at the Re-Source 2021 Conference, a prestigious event held in Amsterdam in October 2021.
Re-Source serves as a prominent platform for corporate renewable energy sourcing, annually bringing together renewable energy buyers and suppliers from across the globe
● Speaking Opportunities:
Shared the strategy for corporate emission reductions and introducing international trends in corporate renewable energy consumption at a workshop hosted by the Indonesia Center for Renewable Energy Studies. The workshop, held in Jakarta on February 14, 2023, provided a platform to share insights and best practices on driving sustainable practices within the corporate sector.

Assistant Project Manager January 2020 – June 2020
● Provided valuable assistance to the Project Manager in executing EAC and carbon offset transactions. This included handling various tasks such as managing external communications, preparing relevant documents, and overseeing office administration related to these transactions
● Proactively reached out to existing business partners and corporate clients to provide them with up-to-date information on the current market landscape within the APAC region, focusing specifically on the renewable energy sector.
Additionally, actively explored and identified potential business opportunities to expand collaborations and forge new partnerships
● Conducted an extensive study on the power market structure of six distinct Southeast Asian countries, focusing on their alignment with renewable energy and carbon reduction goals.

Project Analyst (Internship) July 2019 – December 2019
● Summarized Energy Attribute Certificates (EACs) Scheme available globally
● Designed a wind map that shows all installed wind turbines around Changhua County, Taiwan
● Conducted a workshop during the IndoEBTKE Conex Summit in Jakarta in November 2019, where the International REC Standard was introduced to Indonesian companies. The workshop aimed to provide insights and promote understanding of the standard among the participants GDBC INFORMATION CO., LTD. Taichung, Taiwan

Computer Assistant (Part-time) March 2019 – June 2019
● Effectively oversee the computer system while conducting a live streaming online shop on

Facebook, encompassing tasks such as inputting sales order data and ensuring item availability Jakarta Taiwan Education Center Taichung, Taiwan

Adminstrative Assistant (Internship) July 2017 – August 2017
● Ensuring that all necessary documents were prepared for every student who applied to universities in Taiwan

十、預期成果：

ICIC 2024 will further the professional development of teachers and graduate students, both at Tunghai University and other institutions in Taiwan and abroad. Presenters will discuss their ideas on a variety of issues related to international education. Twenty-four professionals are expected to make oral presentations. In addition, there will be two keynote speeches (one related to Sustainability, the other to Management) and a panel discussion on the topic of Regulation and Sustainability. First, second, and third place awards will be given to the top three oral presenters. All presenters will receive certificates.

The ICIC 2024 university level project contest will enable undergraduates to present their research and creative ideas in an interactive setting. The poster event will be open to students at the THUIC, at other Tunghai Departments, and at other universities in Taiwan. Thirty student groups are expected to enter, including 10 each in the management, science, and culture sessions. There will also be a high school level poster session, open to high school students throughout Taiwan. Thirty student groups are expected to participate. To encourage attendance and participation, ICIC 2024 will charge no registration fee to attendees. All poster printing and display fees will be covered by the conference. Those who cannot be physically present at ICIC 2024 will be welcome to attend online. The poster sessions will be the basis for the poster contest. During the presentation, all attendees (including remote attendees) will be free to rate the posters. Professional judges will rate the posters in each category. At the end of the conference, awards in each poster category will be presented in recognition of student achievements. All student participants will receive certificates.
